with talcum powder tablets, which he claimed to be Aspirin. In the Bayer packages are proper directions and the dose for headache, toothache, earache, neuralgia, rheumatism, lumbago, sciatica, colds, grippe, influenza, colds, neuritis and pain generally. Is Your Blood Starving For Want of Iron?

Modern Methods of Cooking and Living Have Made an Alarming Increase in Iron Deficiency in Blood of American Men and Women

Why Nuxated Iron so Quickly Helps Build Up Weak, Nervous, Run-Down Folks—Over 3,000,000 People Annually Taking It to Increase Their Strength, Power, Energy and Endurance.

"Is your blood starving for want of iron? If you were to go without eating until you became weak, thin and emaciated, you could not do a more serious harm to yourself than when you let your blood literally starve for want of iron—iron that gives it strength and power to change food into living tissue," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital.

"Modern methods of cooking and the rapid pace at which people of this country live has made such an alarming increase in iron deficiency in the blood of American men and women that I have often marveled at the large number of people who lack iron in the blood, and who never suspect the cause of their weak, nervous, run-down state. Lack of sufficient iron in the blood has ruined many a man's nerves and utterly robbed him of this virile force and stamina which are so necessary to success and power in every walk of life."

Dr. Sullivan strongly advises those who feel the need of a strength and bloodbuilder to get a physician's prescription for organic iron—Nuxated Iron—or if you don't want to go to this trouble, the purchase of Nuxated Iron in its original package and see that this particular name (Nuxated Iron) appears on the package.

In commenting upon the value of Nuxated Iron as a means for creating red blood, strength and endurance, Dr. George H. Baker, formerly physician and surgeon, Mon-

mouth Memorial Hospital, New Jersey, says: "What women need to put force in their checks and the spring-time of life into the step is not cosmetics or stimulating drugs, but plenty of rich pure red blood. Iron is one of the greatest of all strength and blood-builders and unless this iron is obtained from our food it must be supplied in some form that is easily assimilated if we want to possess power, energy and endurance. I have found nothing in my experience so effective for helping to make strong, healthy red-blooded men and women as Nuxated Iron."

This terrible mortality in a single family leaves only two survivors, Amelia, aged 15, and Philip, aged 12. There will be a May ball Friday evening for the benefit of the Whitecomb high school athletic association. Gilson's orchestra of seven pieces will furnish music from 8:30 to 1 o'clock.
